

Signs your pet needs to visit us

If your pet is showing any of the following signs, please call the veterinary practice:

- **Vomiting**
- **Diarrhea**
- **Unintended weight loss**
- **Change in appetite—decreased or increased**
- **Change in normal activity level: lethargy, hyperactivity, or restlessness**
- **Limping**
- **Sudden inability to move back legs**
- **Crying in pain when touched**
- **Clumsy or disoriented behavior**
- **Seizures**
- **Any loss of consciousness**
- **Coughing, especially at night**
- **Panting in a cat**
- **Any difficulty breathing or labored breathing**
- **Any blue, purple, or pale hue to the tongue and gums**
- **Sudden collapse**
- **Excessive drooling**
- **Straining in the litter box without producing any urine**
- **Crying out while urinating**
- **Change in urination: location, frequency, amount, color, smell**
- **Bloated abdomen**
- **Sneezing excessively**
- **Uncontrolled bleeding**
- **Nose-bleed or bruising anywhere on the body**
- **Any unusual odor**
- **Hair loss**
- **Runny eyes or nose**
- **Squinting**
